Education

- PhD **Stanford University**, School of Earth, Energy, and Environmental Sciences
Emmett Interdisciplinary Program in Environment and Resources, 2021
Co-Advisors: Mark Cullen, Marshall Burke
Qualifying fields: Environmental Epidemiology, Applied Econometrics
- MS **Stanford University**, School of Medicine
Epidemiology and Clinical Research, Global Health Concentration, 2018
Thesis: Oil and gas drilling and risk of preterm birth in the San Joaquin Valley, California
- MEd **Yale University**, School of Forestry and Environmental Studies
Environmental Science, Global Health Concentration, 2015
Thesis: Mercury exposure and risk among women of childbearing age in the Peruvian Amazon
- BS **University of California at Davis**, College of Biological Sciences
Evolution and Ecology (Honors), 2011
Thesis: Effects of global change on alpine microbial communities and nitrogen cycling

Research Interests

environmental health sciences; environmental epidemiology; social determinants of health;
perinatal health; environmental science; health disparities; environmental justice; global health
